Sept.23,1927.

National Radio Tube Co. 6EX.

748-14'th St.

San-Francisco,Calif.

Gentlemen;

The Milwaukee Radio Amatuers Club Inc.,will as usual have an exhibit at the coming Radio Show to be held in this city on the RVth to the 6'th of October.This will consist of a complete HAM station with a 100 Watt Transmitter and a Short Wave Receiver on40 M. with the usual free message service to all,and will be on the air about 8 hours daily.

The Club will be pleased to exhibit any and all parts of apparatus of your manufacture which can be used in the construction of such a station and which you may be able to donate for that purpose.This equipment will then be installed in our club rooms and be a permanent addfor you.

We would be particularly interested in obtaining one of your new type RECTOBULB 'S,May we add that at the last years show our booth created a wide interest and was very favorably commented on by hundreds of people.The attendance at this show was 40,000. The Everready Battery Co.using a full page cover ad in QST in relating our activities at this time.

Thanking you in advance for any favors you may be able to bestow on us,we are,

Yours Very Truly,

The Milwaukee Radio Amatuers Club Inc.

Secy.-Treas.
